

## Texte pour l'oral d'Anglais : Camping Arcachon.

Good morning, everyone,

Today, I going to present you a place from my past that I already come since my childhood : the city of Arcachon and the Camping : **Les Flots Bleus**.

Here, you can see a general view.

When a young boy, with my family (parents and two sisters), I spent my vacation every year near the city of Bordeaux, in a small famous town, Arcachon. One of the most popular place near the city is the Dune of Pilat. This Dune is the biggest in Europe and you can see it on this pictures.

During these happy summers, I could pratice several activities and sports : swimming, scubadiving, tennis, karting. I was used also to have long walks with my friends, who lived in a nice place, a camping nammed Les Flots Bleus. I have a lot of memories from this period, especially became I falled in love for a marvellous girl, Elisabeth ! She was so beautiful with her brown hair and green eyes !

Last year, I came back to Arcachon and to the camping. What a pity ! A very big fire had destroyed the buldings and the forest all around. I was very sad and I tried to remember our games and pleasures. I thought that all my childhood had burned too.
